Web Applications (CM1102)
Autumn Semester Overview

Martin Caminada

Cardiff University

How the Module will be Taught

- The module will be taught
  through a combination of
  - in-person lectures
  - book chapters
  - online resources
  - exercises

- At the start of each week,
  have a look at Learning Central
  for the activities of that week

Assessment

During the Autumn Semester
there will be two pieces of assessment:
1) Coursework (40%), consisting of two parts
   - creating a small static website
      using HTML and CSS only
   - creating a small dynamic website
      using HTML, CSS and a Python CGI script
2) Online Class Test (10%)
   consisting of small number of questions,
   taking no more than 30 minutes in total

How to get Support

- Using the daily online support sessions (each day when there are no lectures or marking sessions)

- using the school's StackOverflow forum https://stackoverflow.com/c/comsc/questions (log in with your university credentials and tag your questions with *cm1102*)
